Testimonials

"Nick has been my trusted go-to whenever I've needed strategic external writing and editing support. His value extends far beyond simply writing, he has an enviable capacity to cut straight to the core of any complex subject with clarity to make it compelling and accessible. I can honestly say Nick is an utter dream to work with, both in terms of the quality of his work and the joy and creativity he brings to his work and working relationships."

Kate Hyslop, Marketing Lead, Automata

"Intuitive, Intelligent and Inspired. Having commissioned several writers in the past, some have needed a lot of briefing before they hit the mark and others haven't hit the mark at all. Nick always hits the target. He gets things quickly, translates the complex into the simple and writes with an elegance and emotive connection that is often lacking in the corporate world. Please don't work with him too much - I'd prefer to keep him all to myself."

Richard Thomson, CEO & Founder, Kaptcha

"Nick is an incredible Content Strategist and copywriter. I have worked with him for many years, and always think of him first when we need to create quality, strategically brilliant content and copy for our clients. Not only that, he is the nicest guy you could ever wish to meet, and you should be so lucky if he's available to support your next project. Hire him immediately!"

Rick O'Neill FRSA, MD, LookTouchFeel

Nick is a delight to work with. He's a fast learner and has an innate ability to be able to explain complex subject matter with clarity and simplicity. I have no doubt that it was his content that enabled my team in TfL (Asset Development) to be successful at the inaugural Employee Engagement Awards for our business improvement initiative.

Mark Henn, Head of Commercial Services, Digital Railway, Network Rail

Put simply, Nick is a critical ModComms team member. His thoughtfulness and copywriting skills are absolutely central to the wide-ranging campaigns we produce for clients. He always delivers on-time and on-budget and we never need to ask for corrections to be made.

My only foreboding while writing this deserved recommendation is that the person reading this will steal him away from us.

Matt O'Neill, Director, ModComms

I've known Nick for many years and he's the first person I go to for client-focused marketing material and other business-oriented content.

He has that rare ability to pick up vertical market knowledge, swiftly getting under the skin of real client needs in new subject areas. Nick is also really easy to do business with and splendid company. Highly recommended!
